HAD SALT RHEUM FOR FOUR YEARS

Began Like a Ringworm on Hand—Though Treated, Washing Irritated It and It Spread Over Arm and Face—Kept Growing Worse.

CURED TWO YEARS AGO BY CUTICURA

"A little over six years ago I had a sore come on my hand. I consulted a doctor. He told me it was a ringworm. I kept on getting worse so I went to another doctor. He called it salt rheum. I kept on taking his treatment for some time but every washday my hand would break out and be worse. It continued to spread till it got over my whole hand and up my arm, also on my face. I suffered with the disease about four years when a friend of mine told me to try Cuticura. I got two cakes of Cuticura Soap, one box of Cuticura Ointment and two bottles of Cuticura Resolvent. When I had used them up, I was cured and I haven't seen the least sign of the humor since. Mrs. Linda Winslow, Wyalusing, Penn., July 13, 1908."

FACE BADLY BRUISED
And Cut by Fall. Now Healed without a Scar by Use of Cuticura.

"On January 31 I fell from a wagon, landing on my face and head against the curb and gutter. I was about the worst looking person that ever had a face. After about two hours' careful washing I got the blood stopped and the dirt off and my face pretty well covered with Cuticura Ointment. You may know that I was pretty well skinned up by the fact that both lips were cut inside and out and the skin on my nose and both cheek bones cut. Part of my face was healed over in a week and the scales came off and while the cheek is still sore there are no marks to prove that I was ever scratched. I would also say that I use the Cuticura Soap for shaving and my face is always soft. W. H. Dean, Newark, Del., February 24, 1908."

Complete External and Internal Treatment for Every Humor of Infants, Children and Adults. Cuticura Ointment (50c) to Cleanse the Skin. Cuticura Resolvent (50c) to Heal the Skin and Cuticura Soap (50c) to Purify the Blood. Sold through the world. Potter Drug & Chem. Co., New York, N. Y.

FLIMFLAM MAN MAY COME HERE

If William Davis, whose specialty is obtaining goods under false pretenses, comes this way, he will receive a warm reception. Sheriff Jarrett and the Chamber of Commerce have both received notices from Chief of Police Dishman of Los Angeles, warning them that Davis is likely to turn his attention here and a careful lookout is being kept for the man.

Davis, who is described as a French Jew, forty-one years old, opened a store at Santa Ana, California, obtained heavy credit through alleged misrepresentations, and then sold out and skipped.

He was extradited from Indiana and returned to Los Angeles for trial. As his physical condition was serious, he was sent to the Los Angeles county hospital while awaiting trial, from which institution he escaped and disappeared. He is said to have worked the game many times before, and from what can be learned of his movements it is believed that he is headed this way.

Gamblers Bagged.

Because they liked the excitement of the gambling table, Ah Cheong, Ken Wai, Wong Chee, Ah Maek, Ah In, Ah Lum and Ah Sin, fell afoul of the law yesterday. Detective Apana descended upon them and escorted them to the police station, where they were booked on a charge of gambling.

Ninety Days for Yarik.

Ninety days in jail was the sentence passed out to Charles Yarik by Judge Andrade yesterday morning. Yarik was charged with plain drunkenness, but as he had already appeared in Andrade's court six times on the same charge, the magistrate concluded to give him a sentence that would prove a lesson to him. Yarik is the man who held up the conspiracy trials by getting drunk, and a couple of days later was dismissed from the jury for a repetition of the offense.

HONOLULANS ROAMING ALL OVER EUROPE

Mr. and Mrs. William A. Love returned yesterday from the Korea from a European trip. They had a pleasant voyage across the Atlantic, stopping at the Azores, Madeira and other places. Their steamer stopped at Gibraltar and they spent some time in Italy, visiting Pompeii, Naples, Rome and many cities in Switzerland and Germany.

They met many Honoluluans. They ran across C. B. Wells in several cities, finding him first in a picture gallery. One Honoluluans hailed Mr. Love from the second story of a hotel in an island town. They found the world to be quite small when they could find Honoluluans roaming all over the continent.

As to General Manager Schwerin's statements about wireless and about its being a plaything for the passengers on Atlantic boats, Mr. Love says that that is just what the steamship owners on the Atlantic are providing all the time—amusements and playthings for the passengers. The Atlantic steamers are provided with almost everything to be found ashore, and as long as the public wanted wireless they got it.

Old Spanish coins to the amount of \$2500 were unearthed by workmen who were repairing a road near Stockholm.

SIDELIGHTS ON CAMPAIGN FOR FILIPINO LABORERS

The following is from the Manila Daily Bulletin:

It is an energetic campaign that the Hawaiian Planters' Association is making in the Philippines for labor for the great sugar estates of the Hawaiian Islands.

For a year past, a more or less persistent effort has been made to gather recruits, but it has only been during the past six months that the work of the labor agents has been meeting with pronounced success. Mr. O. A. Steven, of Honolulu, arrived at Manila yesterday. He comes from Hongkong where he has just dispatched a hundred or more Filipinos to the Hawaiian Islands. These men were secured in the southern islands and a large percentage of them came from in and about Cebu.

Mr. Steven is no novice in securing results as a recruiting agent. He is a well known business man of Honolulu and for some years was associated with the brokerage and auction house of J. F. Morgan and Company. He has the labor situation in the Hawaiian Islands down to his finger tips. He is a ready talker and he apparently is offering the Filipinos a proposition that looks like the finished work of the old masters compared to what the laborers may expect by staying with the Philippine game.

Mr. Steven had the reputation of being a hard, round dollar from a reluctant fist through his persuasive eloquence on the auction block in Honolulu. He is also meeting with the same degree of success in his efforts to enlist Filipinos for the cane fields of Hawaii. The men are to replace the refractory Japanese who have made life a burden to the managers of the big plantations on the islands of the Hawaiian group. The Japanese were averaging from \$18 a month and upward, but through the efforts of thugs and agitators thousands of the little brown men from Nippon left their jobs and commenced a pilgrimage to Honolulu where they are reported to have proved a menace to law and order.

It is understood that the labor which is gradually replacing the strikers is receiving as high as one dollar and a half gold per day. The planters also provide free quarters and medical attendance.

Mr. Steven has been assisted in his labor campaign by L. E. Pinkham who at one time was at the head of the Hawaiian board of Health.

Their efforts here will be watched with keen interest by the local commercial interests who at present are suffering from a lack of sufficient labor to carry on projected work.

A Thousand a Month.

In another issue the Bulletin says: The sugar planters of Hawaii now face the serious problem of Americanizing the island territory and they have turned to the Philippines for a solution of a disagreeable and perplexing question.

One thousand Filipino laborers are expected to be recruited each month for the cane fields and sugar plantations of the Hawaiian Islands according to the present plans and endeavors of the Sugar Planters' Association, an organization backed by millions of dollars.

Labor agents are now in the field and a much larger number will soon be sent broadcast throughout the Philippines to gather recruits. It is

the intention of the representatives of the Hawaiian Sugar Planters' Association to go about their work quietly but wherever available labor can be found it is believed a sufficient alluring proposition can be advanced which will convince the Filipino that life on a sugar plantation in the Territory of Hawaii is far more to be desired than to continue a fitful struggle for a livelihood in their homeland.

It appears that the subject of Americanizing the Territory of Hawaii has received much consideration at the hands of the Washington government. It was not many months ago that, at the instance of President Roosevelt, Secretary Dickinson, of the Bureau of Commerce and Labor, was sent to the Hawaiian Islands to make an exhaustive study of the labor conditions there. The Federal government realizes that with between seventy and eighty thousand Japanese already living in the islands and besides about twenty thousand Chinese engaged in business there, the Asiatics are fast becoming a strong and powerful factor in a territorial population which now numbers about one hundred and sixty thousand people.

It is contended that the big percentage of Japanese in Hawaii are all eligible to citizenship. It is pointed out that with the elective franchise in vogue throughout the territory practically every office at the gift of the people will in time be held by an Asiatic. The contemplation of this state of affairs has led Washington to take notice and it was this condition which confronted Secretary Dickinson upon his tour of investigation.

For the past three years the Japanese have furnished the great bulk of the labor on the sugar plantations. The Washington official is said to have presented the situation to the Hawaiian planters in strong and unmistakable terms. He also set forth the desires and intentions of the Washington government. Hawaii must be Americanized at whatever cost to the sugar planters. If not, then the present form of territorial government must be eliminated and the islands must be governed by a specially appointed commission such as administrators to the affairs of the District of Columbia.

As the best way out of the dilemma the planters have decided upon the Americanizing of the territory and to bring about this condition they readily turn to the Filipino as a substitute for Japanese labor. After spending hundreds of thousands of dollars, the managers of the great sugar estates have realized that white labor can not be induced to work in the cane fields or in many capacities on the plantations. The work must be performed by a race of people used to the tropics.

It is believed that the present campaign for recruits now being conducted in the Philippines, has the tacit endorsement from the powers that be at Washington. Just how far the approval and sanction of the project to drain the Philippines of its available labor has gone, is at present a matter of conjecture.

Every thousand Filipinos arriving at Hawaii it is believed will cause the departure of at least an equal number of Japanese and slowly but surely reduce the preponderance of Asiatics which now practically dominate the citizenship of the Hawaiian Islands.
